ABOUT US

Founded in **2012,**

Chimpare is headquartered in Fareham, UK, with additional offices in key global locations including **London, New York, Sydney, Toronto, and Dubai.** Our team embodies professionalism and expertise, leading the industry in software development.

We are problem solvers and consultants committed to providing technical solutions tailored to our clients' needs. Whether it's nurturing start-up ideas into viable products or architecting enterprise-level solutions, we approach every project with creativity, ingenuity, and a relentless pursuit of excellence.

Whether you prefer remote collaboration or in-person meetings, we adapt to your business needs, providing support and expertise every step of the way.

OUR TEAM

At Chimpare, our dedicated team is the heartbeat of our organization, driving our mission forward with passion, expertise, and unwavering dedication. With experienced teams strategically positioned across the UK, US, Australia, Canada, and UAE, we bring a global perspective to every project we undertake.

The Most Effective Team for a Productive Journey

We pride ourselves on being personable, professional, and industry leaders in the software development space. Each member of our team embodies these values, contributing their unique talents and insights to deliver innovative solutions that exceed client expectations. Through collaboration, creativity, and a relentless pursuit of excellence, we continuously push the boundaries of what's possible, ensuring that we remain at the forefront of the ever-evolving technology landscape.

Build

Development

With a clear roadmap in place, our experienced developers kickstart the coding process. We follow agile methodologies breaking down the project into manageable tasks.

QA

Testing and Quality Assurance

Quality is paramount at Chimpare. Our dedicated QA team conducts thorough testing at each stage of development, including unit testing, integration testing, and user acceptance testing (UAT).

Chimpare

DEVELOPMENT PROCESS

REBECCA GOSNELL

★★★★★

Working with Chimpare was a pleasure. Their dedication to our project was evident from the start. Their in-depth knowledge of web design and the airline industry allowed them to create a website that perfectly met our needs. The user interface was intuitive, and it significantly improved our customers' booking experience.

DARREN LUNT

★★★★★

It was an absolute pleasure to work with this vibrant team. Immense knowledge and always answered my question in less than 4 hours. Attention to detail and always thinking outside the box. Will definitely use their service again in the future.

Launch

Deployment and Release

We deploy the solution to a staging environment for final validation. Upon client approval, we manage the smooth transition to the production environment, ensuring minimal disruption to operations.

Handoff

Maintenance or Handoff

Our commitment to our clients extends beyond project completion. Once handoff is complete we offer comprehensive post-launch support and maintenance services to address any issues.
